Virtual Urinalysis Lab. A urine test may be done as part of a routine physical examination to screen for a disease or infection of the urinary tract. Symptoms that may lead to a urine test include

discolored or foul-smelling urine, pain during urination, difficulty urinating, flank pain, or fever.

### **virtual\_urinalysis\_lab - Google Docs**

A urinalysis is a very common test in which a sample of urine is examined in a laboratory. Your doctor may order a urinalysis as part of an overall physical exam or wellness check, or to test for certain specific conditions (especially if you have symptoms of those conditions) or to monitor your health if you have certain health problems such as diabetes or kidney or liver disease.

A urinalysis is a group of physical, chemical, and microscopic tests. The tests detect and/or measure several substances in the urine, such as byproducts of normal and abnormal metabolism, cells, cellular fragments, and bacteria.. Urine is produced by the kidneys, two fist-sized organs located on either side of the spine at the bottom of the ribcage.
