Chapter 1 The Science of Biology 1-1 What Is Science? Science is an organized way of using evidence to learn about the natural world. Scientific thinking usually begins with observation, which is the process of gather-ing information about events or processes in a careful, orderly way. The information gathered from observations is called data.

Chapter 1 The Science of Biology Summary

This section is used with the Study Guide at the end of each module of the book. Instead of writing the questions and answers into a regular notebook, the student would complete these booklets to place into his binder. This section provides more of a "hands-on" opportunity for your students. It is similar to
