Lab #7 - LabPaq

Students perform controlled experiments to investigate biological phenomena, generate testable hypotheses, and collect and analyze data. Students explore living organisms at the highest levels with taxonomy, ecology, and evolution; investigations at the cellular level include performing controlled experiments to manipulate biological pathways and model genetic processes.

Biology Lab Kit - Hands-On Labs

I have been using Hands-On Labs in our online General Chemistry course for two semesters. Hands-On Labs is great! Our online students love getting to perform hands-on chemistry experiments at home, and I love that they are getting an experience that is very similar to our on-ground students.

Home - Hands-On Labs

experiments can be and are being successfully performed in regular biology laboratories, these experiments were specifically designed to be performed in non- laboratory settings in conjunction with a formal biology course.
