Because POGIL is a student-centered instructional approach, in a typical POGIL classroom or laboratory, students work in small teams with the instructor acting as a facilitator. The student teams use specially designed activities that generally follow a learning cycle paradigm. These activities are designed to have three key characteristics:

POGIL | What is POGIL?

What makes POGIL different? Many student-centered instructional techniques can be effective for achieving valuable learning goals in the classroom. POGIL differs from other approaches in two particular ways. The first is the explicit and conscious emphasis on developing essential and purposeful process skills.
