Light and Sound. By Clint Twist. (2009). 24p. Ticktock Books Ltd, (978-1848980617). Gr. 2-5. Twist pares the complicated science behind light and sound to essentials that children can grasp through simple question and answer formats.

Light - Fifth Grade Science

FORCES . A force is any push or pull that causes an object to move, stop, or change speed or direction.; The greater the force, the greater the change in motion will be. The more massive an object, the less effect a given force will have on the object.; Unless acted on by a force, objects in motion tend to stay in motion and objects at rest remain at rest.
