I'm trying to determine something by an employee's IP address for logging into SFDC. I have session settings set to timeout after 2 hours, but it never seems to work. Like I'll be using SFDC, go to bed, get up wake up my PC at 11am so basically 14 hours or so later, and I'm still logged into SFDC and it works fine, doesn't force me to log in again.

Looking at Trail Tracker in our company org and I know I am going to be one of the problem accounts as I prefer to keep my Trailhead / Certifications under my personal gmail account versus tying to my company login. When I go to "Connect" my production login with my personal Trailhead it allows me to login and approve access.

Hi Question: How can I force HANA to backup the log file with committed transactions now? . . More info: I can see in an old post someone asking why you need this. Here's one reason why. In our environment, log backup destination path is a NAS filesy

How can I force log backup - SAP Q&A

If I log into Skype using the same account but the pcs I am using are different? For instance would logging in on my home laptop close the Skype client that's logged in at my grandparent's house? Additionally, if this does not happen, and I am in a conversation with someone, would it be possible to someone at my grandparent's house to read it, hypothetically?
