Tro's four-step approach to problem solving encourages students to think through the solution logically. Two- and three-column example formats help students break down the steps of each problem. The left column is what a professor would say when solving a problem. The right column is what a professor would write when solving a problem.

Tro, Chemistry: A Molecular Approach, 4th Edition | Pearson

Tro's four-step "Sort, Strategize, Solve, and Check" problem-solving approach in the worked examples helps students connect the chemistry concepts to the problem and to its solution by developing an explicit conceptual plan for each problem. This method helps students understand where to start a problem and to think through the solution rather than simply formula hunting based on the given information.
