DNA—The Language of Life. Like a miniature library, DNA stores piles of information in extraordinary molecules that specify the details of everything from the shape of flower petals to the color of your eyes. DNA resembles a language in many uncanny ways, as though a supremely intelligent Author and Life-Giver left His indelible message in every living thing.

### **DNA—The Language of Life | Answers in Genesis**

The Language of DNA. DNA is one of God's amazing creations. It communicates the language of life.

### **The Language of DNA | Kids Answers**

Numeral systems of DNA. DNA as you said is written in quaternary (=numeric system at base 4). The four letters are called A,T,C and G which stands for Adenine, Thymine, Cytosine and Guanine (4 nucleotides). Numerical systems of proteins. Proteins on the other hand are coded in a system at base 21 (21 amino acids).

### **genetics - What is the instructional language of DNA ...**

The remarkable language of DNA. One of the functions of DNA is to control the manufacture of the many proteins needed to maintain a healthy body. The protein hemoglobin in our blood, for example, must be very carefully constructed so that it can efficiently transport oxygen from the lungs to various parts of the body.

### **The remarkable language of DNA - creation.com**

The Language of DNA. The hovering of a hummingbird; the brilliant, delicate petals of a rose; the drumming of a woodpecker on a tree trunk; the thousand-mile migration of monarch butterflies from North America to the central mountains of Mexico; the transformation of a caterpillar into a butterfly . . .

Answers.com ® Categories Literature & Language Languages and Cultures English Language What is the four-letter DNA alphabet and what are the special rules by which the alphabet pieces bond together?

### **What is the four-letter DNA alphabet and ... - answers.com**

Answers. "Language" is a term so loosely used in everyday use... Following your precise definition, "programming languages" aren't languages either. Neither is what is commonly referred to as "computer language", a binary sequence (guess what else is binary... DNA!) that represents commands and data.

### **Why do some creationists claim DNA is a language? | Yahoo ...**

Best Answer: DNA evolved from RNA - which DOES occur naturally. Loose nucleotides on a clay surface bond to form chains. The minimum for a self-replicating strand of RNA (commonly known as a viroid) is estimated at only 20 nucleotides long. This could easily form by itself...

### **Who or what designed the DNA? | Yahoo Answers**

DNA polymerases form the bonds between the nucleotides of the new DNA strand. Replication begins at many sites on the DNA molecule. Replication occurs in both directions from each of these

sites, forming replication “bub-bles.”The bubbles merge, and two double-stranded DNA molecules are formed. 5.

### **CHAPTER 11 DNA and the Language of Life - TeacherPage**

The genetic code had to be a “language” — using the DNA alphabet of A, T, C, and G — that produced enough DNA “words” to specify each of the 20 known amino acids. Simple math showed that only 16 words are possible from a two-letter combination, but a three-letter code produces 64 words.

### **DNA words are three letters long :: DNA from the Beginning**

dna and the language of life answers chapter 11 dna and the language of life answers as early as 1863, lincoln proposed a plan for restoring southern state governments if \_\_\_\_\_ percent of the 1860 voting population took a loyalty oath to the union.

### **Chapter 11 - DNA and the Language of Life... test: Feb ...**

The existing answers are kind of strange, and may lead to misunderstanding. So... your DNA is not a programming language, it’s the program. And it’s a program to create amino acids and proteins. That program is “written” in “quaternary code” (binary...

### **Is DNA a programming language? - Quora**

The DNA is first unwound and unzipped by several enzymes. Then a piece of Rna is created to match the DNA. It is created much like DNA with A connecting with T, C to G, and G to T.
