Aquaponic Farming Training | The Aquaponic Source

Danish company Human Habitat has developed a hydroponic garden system that requires just 538 square feet of space to grow fresh food. Its two story design doubles the amount of food that can be grown per square foot. Not only can their flatpack urban farm be squeezed into almost any available space in cities, it could also be set up anywhere access to fresh food is needed.

Heshe aquaponic farms

Gardening and landscaping can be a tricky proposition—sustaining plant life is involved work that connects you to an entire ecosystem. However, with the right knowledge and aptitudes, you can turn a bland, boring outdoor space with a lively, colorful explosion of flowers, fruit, vegetables, and foliage.
