### **Art Theory A Very Short**

Art is a diverse range of human activities in creating visual, auditory or performing artifacts (), expressing the author's imaginative, conceptual ideas, or technical skill, intended to be appreciated for their beauty or emotional power. In their most general form these activities include the production of works of art, the criticism of art, the study of the history of art, and the aesthetic ...

The iceberg theory or theory of omission is a writing technique coined by American writer Ernest Hemingway. As a young journalist, Hemingway had to focus his newspaper reports on immediate events, with very little context or interpretation. When he became a writer of short stories, he retained this minimalistic style, focusing on surface elements without explicitly discussing underlying themes.

New Criticism. A literary movement that started in the late 1920s and 1930s and originated in reaction to traditional criticism that new critics saw as largely concerned with matters extraneous to the text, e.g., with the biography or psychology of the author or the work's relationship to literary history.
