Inventory management is primarily about specifying the shape and percentage of stocked goods. It is required at different locations within a facility or within many locations of a supply network to precede the regular and planned course of production and stock of materials. The scope of inventory management concerns the fine lines between replenishment lead time, carrying costs of inventory ...

Inventory Management - Supply Chain 24/7 Topic

A planet is an astronomical body orbiting a star or stellar remnant that is massive enough to be rounded by its own gravity, is not massive enough to cause thermonuclear fusion, and has cleared its neighbouring region of planetesimals.. The term planet is ancient, with ties to history, astrology, science, mythology, and religion.Five planets in the Solar System are visible to the naked eye.

Planet - Wikipedia

In the 1960s, the population of herring in the Northeast Atlantic (Iceland and Norway) nearly collapsed, largely due to overfishing. At the time, there was rising conflict between fishermen and killer whale populations that were feeding on herring and were reportedly harming fishermen's nets.

I wasn't going to put this section in, but I have to. I wanted to keep the website as free from handwavium as possible. However, while Faster-Than-Light travel is about as handwavium as you can get, it is unfortunately the sine qua non of interstellar space opera. Space opera with no StarDrive is like chocolate cake without the chocolate.
