Spotlight Review — Practical Homeschooling... here's what sold me on this program. While doing PSAT preparation we learned that my oldest (and math resistant) daughter was weak on probability, so I had her work with the Word Problems/Probability CD.

MATH TEACHER Educational Software - mathkalusa.com

Exponential word problems almost always work off the growth / decay formula, $A = Pe^{rt}$, where "A" is the ending amount of whatever you're dealing with (money, bacteria growing in a petri dish, radioactive decay of an element highlighting your X-ray), "P" is the beginning amount of that same "whatever", "r" is the growth or decay rate, and "t" is time.

Exponential Word Problems - Purplemath | Home

When you learned how to translate simple English statements into mathematical expressions, you learned that "of" can indicate "times". This frequently comes up when using percentages. If you need to find 16% of 1400, you first convert the percentage "16%" to its decimal form; namely, the number "0.16". (When you are doing actual math, you need to use actual numbers.
