Erasmus, Desiderius ( ) . Dutch humanist.Erasmus produced editions of classical texts far superior to those of the medieval period and, in Diatribe de libero arbitrio (Discourse on Free Will) (1524) defended the moral freedom of individual human beings. The Ecomium moriae id est Laus stultitiae (Praise of Folly) (1509) satirized the political and religious institutions of his time, and many of ...

The two parvorders, baleen whales (Mysticeti) and toothed whales (Odontoceti), are thought to have diverged around thirty-four million years ago. Baleen whales have bristles made of keratin instead of teeth. The bristles filter krill and other small invertebrates from seawater. Grey whales feed on bottom-dwelling mollusks. Rorqual family (balaenopterids) use throat pleats to expand their mouths ...

Animal languages are forms of non-human animal communication that show similarities to human language. Animals communicate by using a variety of signs such as sounds or movements. Such signing may be considered complex enough to be called a form of language if the inventory of signs is large, the signs are relatively arbitrary, and the animals seem to produce them with a degree of volition (as ...
