Hints offer clear guidance. Mastering provides hints of two types that help you work through, and ultimately, solve problems. Declarative hints provide advice on how to approach the problem, guiding you to the final answer. Socratic hints break a problem down into smaller sub-problems, which makes it easier for you to complete the original problem.

#### Features for Students | Mastering Chemistry | Pearson

When a student inputs the correct answer, Mastering Physics further reinforces the concept by explaining why the answer is correct. The questions force students to demonstrate what they've learned and give the instructor the opportunity to use the gradebook to recognize the most common misconceptions and address them during lecture or discussion.
