View Full Document. CHAPTER 12 Answer Keys Teaching Transparency 32 – Global Wind Systems 1. the northeast trade winds in the northern hemisphere and the southeast trade winds in the southern hemisphere 2. Air rises at the equator and then flows northward. At about 30 degrees north latitude, the air sinks.

## **CHAPTER 12 Answer Key - Course Hero**

There are three pairs of major global wind systems, or wind belts: trade winds, westerlies, and polar easterlies. Trade winds are wind belts that blow from 30° lati- tude almost to the equator. They curve to the west as they blow toward the equator. Westerlies are wind belts that are found between 30° and 60° latitude.

#### **CHAPTER 15 SECTION 3 Global Winds and Local Winds**

Lab Activity on Global Wind Patterns D-63 10. When you "fly" (in an airplane) up to the upper part of the water "atmosphere" near the center of the cake pan, which way do you feel the "wind" blow? (circle your answer) from the pole (ice) to the equator (candle) / from the equator (candle) to the pole (ice) 11.
