Architectural rendering is the process of creating two-dimensional and three-dimensional images of a proposed architectural design. The goal of architectural rendering is to illustrate lifelike experiences of how a space or building will look like before they have been built.

ARCHITECTURAL RENDERING - autodesk.com
An architectural drawing is a technical drawing of a building (or building project). Architectural drawings are used by architects for a number of purposes: to develop a design idea into a coherent proposal, to communicate ideas and concepts, to enable construction by a building contractor, and to make a record of a building that already exists.

ARCHITECTURAL DRAWING - autodesk.com
Autodesk uses own solution for their Toronto office. Pushing the limits of generative design for architecture, Autodesk's new office in Toronto is the first large-scale example of a generatively-designed office space. Watch video (2:24 min.) Van Wijnen reinvents the way homes are built.
